**What is Bluebonnet Farms™ Corn Gluten Blend Organic Fertilizer?**

A slow release 10% nitrogen organic fertilizer fortified with yeast culture. For use in organic vegetable and flower gardens, grazing pastures, lawns and landscapes, parks, play grounds, golf courses, and anywhere else where organic plant food is needed. Bluebonnet Farms Corn Gluten Blend can be used in and around flower, vegetable and herb gardens and crops, perennial plants, annual and perennial bulbs, turf grasses, citrus, fruit and nut trees, ornamental trees and shrubs, rose gardens, and virtually any woody and herbaceous plant. May be applied using a spreader or tilled directly into the soil.

**-DIRECTIONS FOR USE-**

TURF & CROP AREAS	NON-CROP AREAS
<p>For use in established perennial bluegrass, bent grass, bermuda grass, buffalo grass, perennial ryegrass, St. Augustine grass, seashore paspalum, tall fescue and zoysia turf. Use prior to planting row crops or in vegetable and flower gardens.</p> <p><b>Cool Season Lawns</b> Apply 3 applications per year at 20 lbs. per 1000 square feet.</p> <p><b>Warm Season Lawns</b> Apply 2 to 3 applications per year at 20 lbs. per 1000 square feet.</p> <p>For all crops, woody and herbaceous plants apply 20 to 40 lbs. per 1000 square feet 3 to 4 times per year.</p>	<p>Apply with a properly calibrated applicator that will apply the product uniformly.</p> <p>May also be hydroseeded with a commercial hydro-seeder. Do not apply grass seed at the same time as you apply this product.</p> <p>Apply in agricultural grazing pastures, commercial and residential landscapes, parks, playgrounds, golf courses, right-of-ways ( including but not limited to ditches, canals, roadsides, easements, open space areas, etc.).
