NET WT. 50 LBS. (22.7 Kg.)

-PRODUCT DESCRIPTION-

Bluebonnet® Game Cock Conditioner is a select combination of high quality cleaned and polished grains and other ingredients. This special ration was formulated to help meet the nutritional requirements of adult game poultry before and during the keep. This ration is fortified with protein, energy, vitamins and minerals to help ensure the ultimate conditioning and fortitude.

-FEEDING DIRECTIONS-

Feed to birds individually by hand once or twice daily. This ration may be fed with other feeds or grains depending on the birds' requirements. Game Cock Conditioner may be fed free choice, if preferred. For extra conditioning and/or excellent breeding results use Bluebonnet® Super Spur Game Supplement according to directions.

NOTE: Monitor the condition of your birds and increase or decrease the daily feed amounts to obtain the desired condition, production, or growth rate. Provide plenty of fresh, clean cool water at all times. Keep feed fresh in cool, dry storage. Carefully examine all feed used before each feeding to ensure product appears and smells fresh and wholesome (including daily examination of feed offered in self feeders). DO NOT offer birds feed that is old, wet, soiled, molded or insect contaminated.
