

# EQUILENE® PELLETED

Equilene® Pelleted feed is ideal for growth, performance, breeding, and maintenance horses aged from yearlings to seniors. This specialized formula contains low starch and sugar levels and is fortified with prebiotics and probiotics which allows for safer and more complete utilization of the feed and forage. The added 7% fat level supplies "cool energy" calories for high performance and excellent appearance.

## REDUCED CARBS

Diets low in starch and sugar support better mental focus and help reduce digestive upsets such as colic and ulcers.

## "COOL ENERGY" CALORIES

Plant-derived oils, rich in essential omega fatty acids, are a safe way to increase shine, improve endurance, and add extra weight or body condition to your horses.

## PROBIOTICS & PREBIOTICS

Prebiotics and Probiotics help horses absorb more nutrition from their diet and support normal healthy function of the digestive tract and immune system.

## SUPERIOR VITAMIN SOURCES

Bluebonnet® Feeds uses only USA and European-sourced, human-grade vitamins. This ensures the highest quality and most stable vitamin package possible.

## ORGANIC MINERALS

Trace minerals used in Equilene® are backed by over 250 published studies. This unique form is actively absorbed and proven to support hoof health, skin & coat quality, and intestinal health.

## TRUE-NAME INGREDIENT LISTING

Every ingredient is listed by its True Name on the tag. This offers full transparency of the quality ingredients going into each bag of feed.

## RIGID INGREDIENT STANDARDS

Raw ingredients are tested prior to being accepted by the mill, and only the highest standard of ingredients are used. This allows all Bluebonnet® horse feeds to have a Locked-Formula policy which ensures ultimate consistency from batch to batch.

# Bluebonnet® Feeds

## EQUILENE® PELLETED

High quality pelleted feed designed for horses in all life stages.

### DAILY FEEDING DIRECTIONS:

**All Horses:** Feed quality hay at a minimum of 1.5% to 2.0% of horse's body weight.

**Adult Maintenance:** Feed 0.5 lb per 100 lb body weight.

### Performance

Light Activity: Feed 0.5 to 0.75 lb per 100 lb body weight.

Moderate Activity: Feed 0.75 to 1 lb per 100 lb body weight.

Intense Activity: Feed 1 to 1.25 lb per 100 lb body weight.

### Breeding/Growing

Pregnant Mares: Feed 0.75 to 1 lb per 100 lb body weight.

Lactating Mares: Feed 1 to 1.25 lb per 100 lb body weight.

Growing Horses: Feed 1 to 1.25 lb per 100 lb body weight.

Adjust feeding rates based on desired body condition and forage quality.

### IMPORTANT FEEDING INFORMATION:

- Transition horses onto this feed gradually over 14 days.
- Increase or decrease daily feed to obtain the desired growth, weight gain or body condition.
- Offer clean fresh water and plain white salt at all times.
- Weigh feed and divide feed into two or three separate feedings for best results and safety.
- Store in cool dry area away from rodents, insects and moisture.
- Do not use feed that appears old, molded, or has an unusual odor.

**INGREDIENTS:** Dehydrated Alfalfa Meal, Wheat Middlings, Rice Hulls, Rice Bran, Dehulled Soybean Meal, Soybean Oil Calcium Carbonate, Lignin Sulfonate, Bentonite, Salt, Monocalcium Phosphate, Dried Cane Molasses, Yeast Culture, L-Lysine, Dried Lactobacillus Acidophilus Fermentation Product, Dried Lactobacillus Casei Fermentation Product, Dried Bifido Bacterium Thermophilum Fermentation Product, Dried Enterococcus Faecium Fermentation Product, Zinc Methionine Complex, Copper Lysine Complex, Manganese Methionine Complex, Cobalt Glucoheptonate, Vitamin E Supplement, Zinc Sulfate, Selenium Yeast, Copper Sulfate, Biotin, Mineral Oil, Magnesium Oxide, Vitamin B12 Supplement, Thiamine Mononitrate, Vitamin A Supplement, L-Tryptophan, Riboflavin Supplement, Folic Acid, Vitamin D3 Supplement, DL-Methionine, Niacin, Ethylenediamine Dihydroiodide, Pyridoxine Hydrochloride, D-Calcium Pantothenate. Contains a source of live (viable) naturally occurring microorganisms.

### GUARANTEED ANALYSIS

|                         |     |             |
|-------------------------|-----|-------------|
| Crude Protein           | Min | 14.00%      |
| Lysine                  | Min | 0.80%       |
| Methionine              | Min | 0.20%       |
| Threonine               | Min | 0.40%       |
